EDUCATION

**B.E.	Information Technology	Savitribai Phule Pune University** P.E.S. Modern College of Engineering, Pune	**CGPA: 8.57**	**2024**
**HSC	Yashwantrao Chavan Institute of Science, Satara**	**Percentage: 76.62 %**	**2020**
**SSC	Anant English School, Satara**	**Percentage: 95 %**	**2018**

TECHNICAL SKILLS

Programming: C++
Web Stack: HTML, CSS, JavaScript, Tailwind CSS, React JS, Node.js, Express.js, MongoDB, MySQL, Socket.IO, Redis
Tools: Git, GitHub, VS Code, Postman, Docker, MongoDB Compass, MongoDB Atlas, Firebase, Vercel, Render

PROJECTS

GuildMasters Website GitHub | Website

- Built a MultiPage **React** website,the development approach emphasizes breaking down the website into modular components,ensuring a clean and efficient codebase with reusability. The website serves as a Guild for gamers to explore different games, offering events, insights
- Set up and deployed website using cloud-based platform **Firebase** and website is fully **Responsive** with **interactive UI**
- **Sign Up**, **Log In** module built using **Node.js and Express.js** that will securely store user Authentication data in **MongoDB Atlas** by using **JWT** and **Cookies** , and backend is seamlessly hosted on **Vercel**

Portfolio Website GitHub | Website

- Developed a personal portfolio website using **ReactJS** to visualize the narrative of projects,expertise, and personality
- For hosting, **Firebase** is used and it is **Responsive** for all devices,and updates the website regularly to show new skills,and projects, for more **interactive UI**, React's main features are used
- Implemented an efficient contact mechanism, streamlining communication by seamlessly directing inquiries to the designated email address

Visual Master GitHub | Website

- Developed a website using **ReactJS, API , WebSocket**, and **ChartJS** which visualizes real time stock market data and crypto data through graphs for better understanding, particularly catering to newcomers in the stock market world. Set up and deployed a website on cloud based platform **Vercel**
- Built backend with Flask, enhanced security with **JWT authentication**, used **MongoDB** to store authenticated data

INTERNSHIP

TCR Innovation – Front-End Intern   **July 2022 - Sept 2022**
Sweet Junction Website Certificate

- Developed a website named **Sweet Junction**, providing a one-stop platform for indulging in one's favorite desserts
- Built by using **HTML, CSS, and JavaScript**. I used **Flask** to enhance shopping and streamline operations, creating a seamless **API** for efficient data management with **MongoDB Compass**
- Got a valuable and meaningful experience throughout this internship and helped me dig into the Web Development domain

WORKSHOPS AND CERTIFICATIONS

Google Project Management- Certificate Project Initiation: Starting a Successful Project	**Coursera** Feb 2023
Google UI/UX- Certificate Start the UX Design Process: Empathize, Define, and Ideate	**Coursera** Feb 2023

LEADERSHIP AND VOLUNTEERING

MPULSE-IGNITE – Event Volunteer (DESIGNX),	**App Club** -(Volunteer at Modern College Of Engineering)

INTEREST AND HOBBIES

Interest: Blogging - Medium	**Hobbies:** Video Gaming, Video Editing, Sports
